Description

iPad Air lets you immerse yourself in whatever you're reading, watching, or creating. The 10.9-inch Liquid Retina display features advanced technologies like True Tone, P3 wide color, and an antireflective coating. The breakthrough M1 chip is now in iPad Air. An 8-core CPU delivers up to 60 percent faster performance than the previous generation, making iPad Air a creative and mobile gaming powerhouse. Multitask smoothly between powerful apps and play graphics-intensive games. And with M1, you can go even further with your creativity with apps like SketchUp. The 12MP Ultra-Wide front camera enables Center Stage, making video calls more natural and content creation more fun. As you move around, the camera automatically pans to keep you centered in the shot. When others join or leave the frame, the view expands or zooms in.
