Description

Elo's Wallaby Pro stands are making it easier than ever to create interactive self service solutions. Purpose-built to handle high-traffic environments, the sleek, space-saving stands are designed to support endless configurability options and easy access to internal components. Simply pair the Wallaby Pro floor stand base with the top to create a single-sided kiosk. The Wallaby offers configurability for a 22- to 27-inch Elo touchscreen, a compute device, a printer, an ADA keypad or assist button, payment devices and edge connect accessories and a backer board for additional brand messaging. The Wallaby Pro provides the flexibility businesses need to get self-service solutions up and running quickly.
